Plant Tulips and Daffodils this fall for a blaze of beautiful color in your garden next spring.

Your spring garden is not complete without the radiant beauty of these gloriously colored spring flowers, with their rich clear colors, that add a bold brilliance to your landscape.

They make a wonderful display when massed in large beds, and beautiful color patches are provided when planted in clumps of a dozen or more bulbs here and there along the border of shrubbery and among perennials or in the rock garden, and a bizarre effect not surpassed by any other flower may be had by planting Tulips in mixed colors.

Tulips and Daffodils or Narcissus will grow and bloom to perfection in any good garden soil that has been thoroughly loosened by deep spading. But for the very largest and finest blooms it will be best to enrich the soil with some kind of fertilizer. Steamed bone meal is an ideal fertilizer for bulbs. Apply about two double handfuls to the square yard and if possible, mix with the soil a good supply of leaf mold or old rotted manure.

In regions where the ground freezes some kind of mulch should be provided. Right after the first heavy frosts or before winter sets in, cover the ground with 2 or 3 inches of leaves or straw or any other light cover to prevent the ground from alternate thawing and freezing which is injurious to bulbs.

In the spring after danger of hard frosts are over, remove this cover carefully so as not to break the tops or leaves of the new growth. Plant 4 to 6 inches deep by 5 to 8 inches apart each way.

Note — Daffodils or Narcissi and the Lilies should be planted in September or early October for best blooming results next spring.

Tulips are best planted in late October or November for best blooms in spring. Tulips if planted too early may make a top growth this fall, which if frozen will check the growth and consequently the stems will be shorter and the blooms smaller.

PRICES PREPAID— All orders will be sent with transportation charges prepaid, by parcel post or express. Everything will be securely packed and wrapped to arrive in first class condition.

SINGLE EARLY TULIPS

Are the First to Bloom

They come into bloom the first part of April, two to three weeks earlier than the other classes of Tulips. They mature quickly and the beds can be planted again to some other summer or late flowering plants.

To My Customers and Floral Friends:

In my Spring List of Dahlias, Gladiolus etc., I made the announcement that I planned to issue this list of choice Oregon grown Dutch Bulbs, Lilies, etc., sometime in June. But we were so busy until late in June filling late orders, planting out and taking care of my crops that I could not get this list ready as planned. However, I trust you will receive this in good time and that I may have the pleasure of receiving your valued orders.

The bulbs which I have to offer are of the very best quality, healthy, vigorous, well matured, and allowed to ripen and cure thoroly in the ground before digging, which practically insures bulbs of a quality that is sure to grow and bloom.

Although some of the newer novelties are limited in quantity, there is a good supply of all other kinds offered with the possible exception of a few of the better known popular varieties, which are always in great demand.

Yours very truly,

N. A. MILLER

PRINCE OF ORANGE. Bright salmon orange of excellent quality. A very showy garden Tulip.

10c each, 3 for 25c, 12 for 80c, 100 for \$5.00

PARROT OR DRAGON TULIPS

A beautiful and artistic race of Tulips. Very large flowers of brilliant showy colors with curiously cut and fringed petals that give them a ruffled, ragged appearance. They make a very odd and interesting show in the garden, and are charming and artistic cut flowers.

CAFE BRUN. Deep yellow, striped and feathered reddish brown.

CRAMOISE BRILLIANT. Rich crimson with blackish markings.

LUTEA MAJOR. Clear yellow, striped red and green. Price, any of the above varieties:

10c each, 3 for 25c, 12 for 75c, 100 for \$5.00

PARROT TULIPS are most interesting when planted in large groups of mixed colors.

Fine mixture, 20 for \$1.00, 100 for \$4.50

FANTASY. A magnificent Parrot Tulip. Immense large flowers with long artistically curled, ruffled and cut petals which gives the flowers a very fantastic appearance; color a beautiful salmon-rose, with apple green spots on the outside of petals, inside a deeper salmon tint, with white base and black anthers. CROCUS

Make a grand display of color, long before the Daffodils and Tulips appear, sometimes as early as the first part of March.

Millions of Crocuses are used for naturalizing in grass and woodlands, and are most showy and beautiful when blooming in the lawns and rock gardens. However, they bloom to the highest state of perfection when grown in open beds or borders.

GOLDEN YELLOW. Extra fine golden yellow.

KATHLEEN PARLOW. Large pure white.

KING OF THE BLUES. Dark blue.

PURPUREA GRANDIFLORA. Large glossy purple.

STRIPED VARIETIES in mixed colors, like lavender, purple and blue, striped white.

Price, any of the above varieties—

35c doz., 100 for \$2.35, 1000 for \$20.00

HYACINTHS

Few spring flowering bulbs are as popular as hyacinths for bedding and growing indoors in pots or pans.

Their wax-like delightfully fragrant flowers are of matchless beauty. They supply some certain colors to the garden which are lacking in the narcissus and tulips—blues, etc.

GERTRUDE. Deep rose pink, extra fine.

KING OF THE BLUES. Rich dark blue.

LA VICTOIRE. Bright rosy crimson red.

L'INNOCENCE. Popular pure white.

LORD BALFOUR. Lovely lilac tinged violet.

QUEEN OF THE BLUES. Pale azure blue.

YELLOW HAMMER. Creamy yellow.

Prices, any of the above varieties—

10c each, 12 for \$1.00, 100 for \$7.50

MUSCARI (*Grape Hyacinth*)

These pretty little hyacinths are perfectly hardy and of the easiest culture. Very effective when massed in the rock garden or naturalized in grass or woods. Grows well in shade. Also fine for winter flowering in the house.

HEAVENLY BLUE. Bright sky blue, tall stems. Largest and finest of the Muscari.

3 for 10c, 12 for 35c, 100 for \$2.50, 1000 for \$20.00

Extra large bulbs for forcing—

10c each, 3 for 25c, 12 for 90c, 100 \$5.00, 1000 \$40.00

Important Notice

I NEVER SUBSTITUTE UNLESS REQUESTED

While we always aim to send out only bulbs of good quality that will produce the best results, mistakes sometimes happen. When you receive your shipment, if everything is not O. K., please write me at once and I shall try to make an adjustment to your entire satisfaction. However, I can give no warranty, or be in any way responsible for the results in the flowering of the bulbs or plants sent out, as this greatly depends on their treatment in the planting, care, etc.
